

Data Understanding & Structuring

Day 4 Internship Deliverables

Submitted By

Name: Shinas PN

Internship: AI Developer Intern

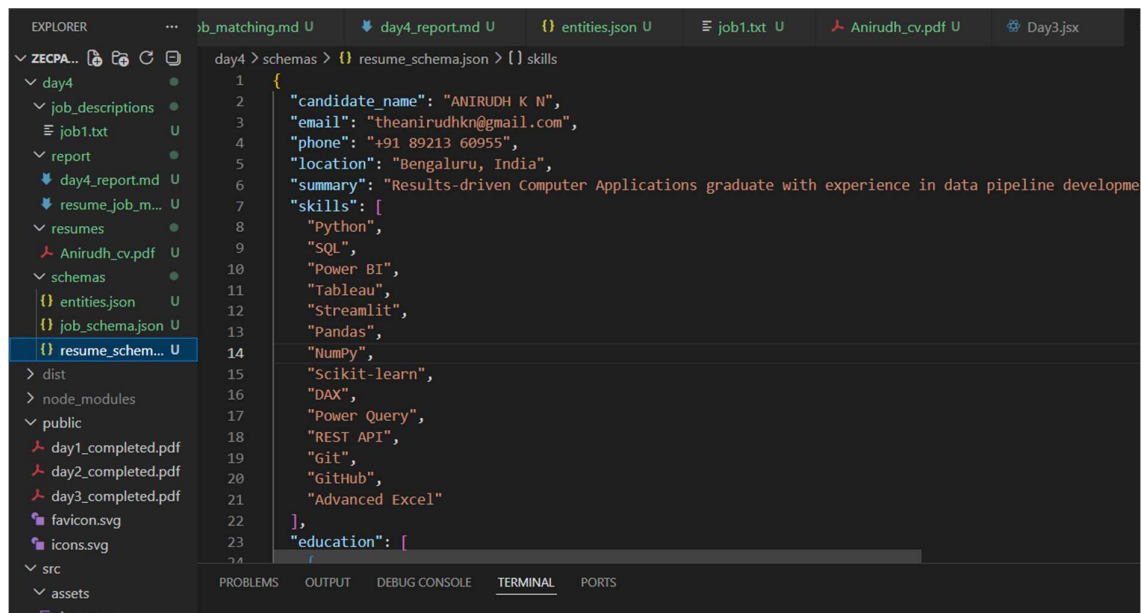

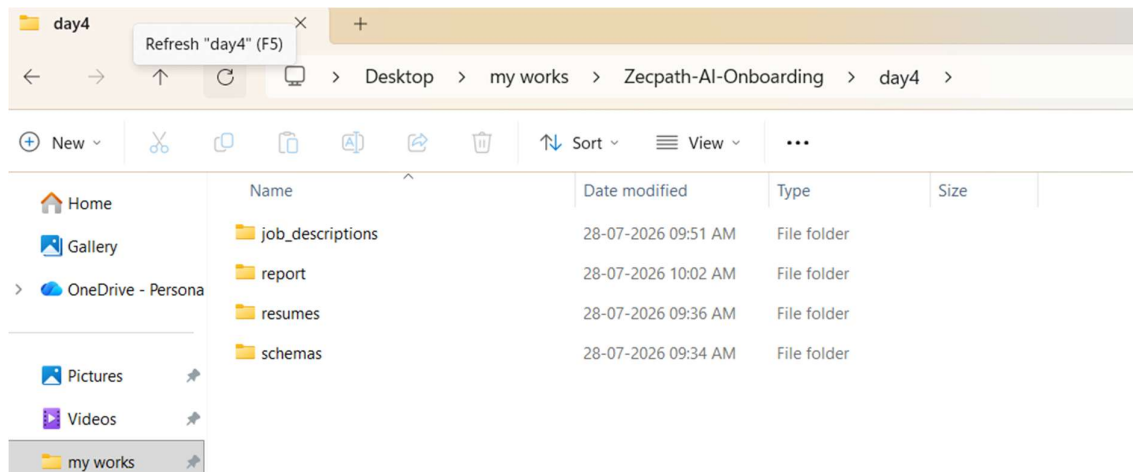

Date: 26 July 2026

Submitted To

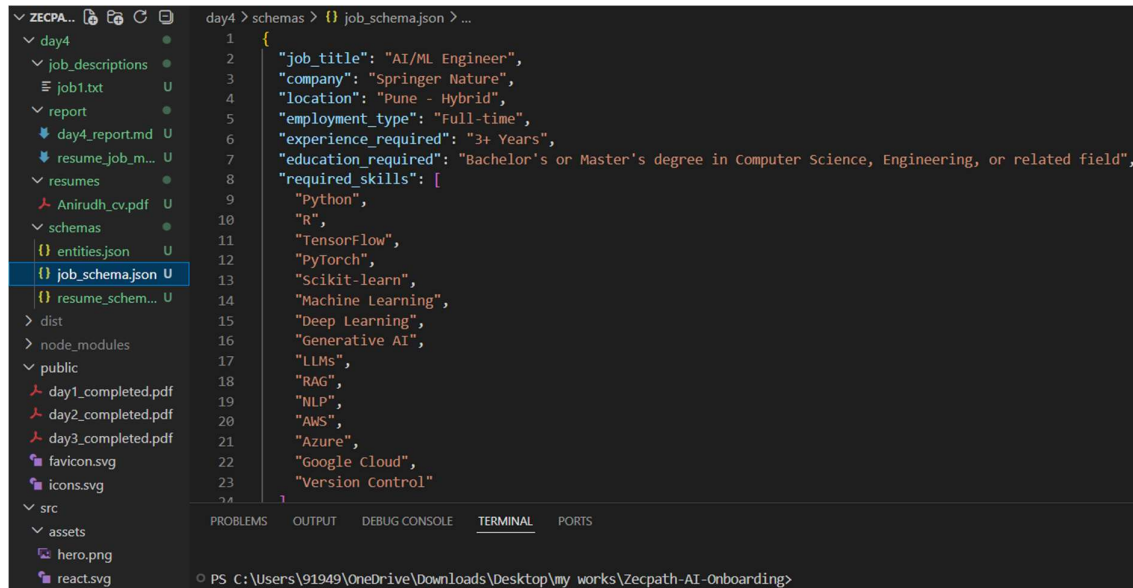

Company: Zecpath

Department: Product & Engineering Team

1.Resume structured schema

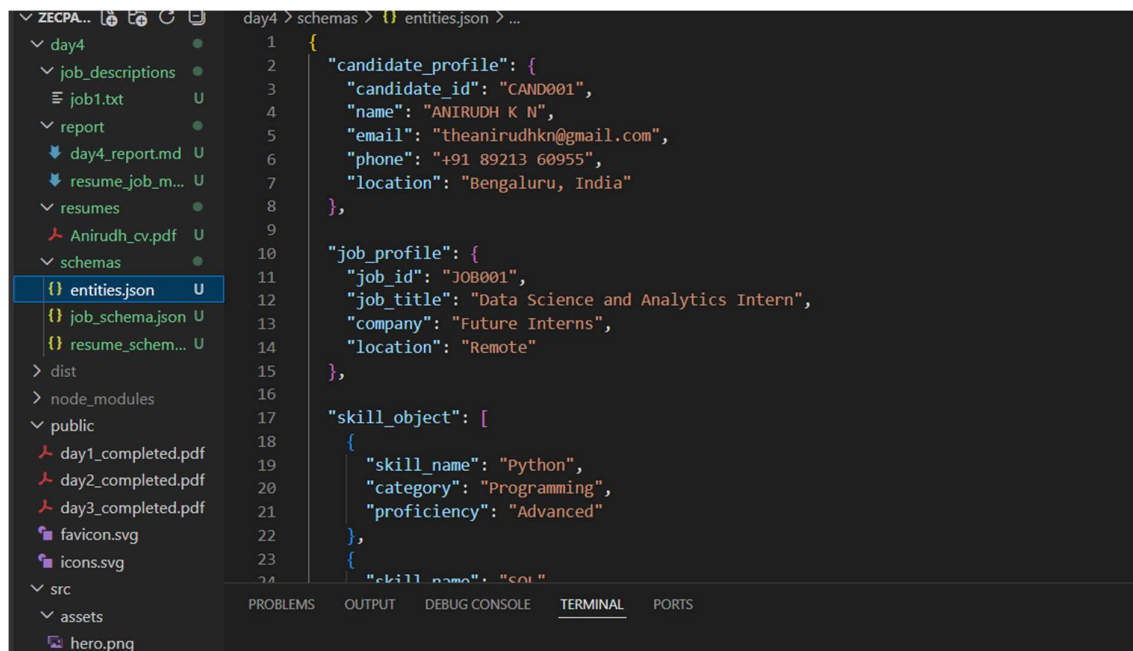

2. Job description schema

```
day4 > schemas > {} job_schema.json > ...
1 {
2   "job_title": "AI/ML Engineer",
3   "company": "Springer Nature",
4   "location": "Pune - Hybrid",
5   "employment_type": "Full-time",
6   "experience_required": "3+ Years",
7   "education_required": "Bachelor's or Master's degree in Computer Science, Engineering, or related field",
8   "required_skills": [
9     "Python",
10    "R",
11    "TensorFlow",
12    "PyTorch",
13    "Scikit-learn",
14    "Machine Learning",
15    "Deep Learning",
16    "Generative AI",
17    "LLMs",
18    "RAG",
19    "NLP",
20    "AWS",
21    "Azure",
22    "Google Cloud",
23    "Version Control"
24  ]
25 }
```

3. AI data entity design document

```
day4 > schemas > {} entities.json > ...
1 {
2   "candidate_profile": {
3     "candidate_id": "CAND001",
4     "name": "ANIRUDH K N",
5     "email": "theanirudhkn@gmail.com",
6     "phone": "+91 89213 60955",
7     "location": "Bengaluru, India"
8   },
9   "job_profile": {
10    "job_id": "JOB001",
11    "job_title": "Data Science and Analytics Intern",
12    "company": "Future Interns",
13    "location": "Remote"
14  },
15  "skill_object": [
16    {
17      "skill_name": "Python",
18      "category": "Programming",
19      "proficiency": "Advanced"
20    },
21    {
22      "skill_name": "SQL"
23    }
24  ]
25 }
```

1 # Day 4 - Data Understanding & Structuring
2
3 ## Objective
4
5 The objective of Day 4 was to understand hiring data by converting unstructured resumes and job
AI-ready formats. This process is essential for AI-powered recruitment systems, resume parsers,
applications.
6
7 ---
8
9 # Tasks Performed
10
11 - Analyzed a sample candidate resume.
12 - Studied an AI/ML Engineer job description.
13 - Identified candidate skills, education, experience, and certifications.
14 - Extracted job requirements and responsibilities.
15 - Designed structured JSON schemas.
16 - Created AI data entities.
17 - Performed resume-to-job matching.
18
19 ---
20
21 # Deliverables
22

```
